

Wheatmonkeys

Since the release of "Hotter than a Pistol" in Oct 2006, the band has toured across Canada several times with showcases at WCMA, NXNE and JunoFest. Two singles were released to commercial radio under the watch of radio promoter Oscar Furtado (Holy McNarland, 54*40). With ads all over western and central Canada and light to medium rotation in several markets as well as charting in the top ten on many college stations.

The band has just completed the first video for the single "heat" that will be sent out over February with the help of a publicist. With hundreds of shows under their belts, the band has built a loyal fan base from coast to coast. The next step for the band is touring in the US market, the band will on there first US tour This Summer

For the new album, the band enlisted the talents of Darin Phieffer (Goldfinger) to play drums, and worked with acclaimed Engineer Mike Fraser (Hedley, GOB, Aerosmith, AC/DC, The Cult) who was tapped to mix the project.

Press

"Energetic does not describe the juiced-up performance of this four-piece, who put on one hell of a show."

-The Sheaf, University of Saskatchewan

"Rock with a Punk attitude."
